

Rockfield Streetscape Project

Phase 1

The project will construct raised landscaped medians and parkway landscape improvements, and repave the entire roadway to provide traffic calming benefits and enhance the visual aesthetics of this corridor. The City was approved for \$500,000 in Transportation Enhancement Grant (TE) funds for this project. A construction contract was awarded by the City Council on September 6, 2011. Construction is expected to begin on January 9, 2012, with completion anticipated by April 2012.
